## HYLAN DENIES EYES ARE ALREADY FIXED ON GOVERNORSHIP

Can't Run Office of Mayor While Seeking Another, His Answer to Report.

Mayor-elect Hylan was asked today if there was anything in the report that he aspires to be the Democratic candidate for Governor next year.

"Absolutely nothing to it," he replied. "I intend to devote all my time and energy during the next four years to the duties of the office of Mayor. Any man holding such an office who tries to use it as a stepping stone to a higher one is not going to make a success of the one he is holding."

"My one purpose is to serve the people and perform to the best of my

ability the duties imposed upon me by the people at the last election. I shall devote all my time to restoring the Government of this city to a sound and business like basis."

The Mayor-elect, Alfred E. Smith, the next President of the Board of Aldermen; Charles L. Craig, Comptroller-elect; Frank L. Dowling, Manhattan Borough President-elect, and perhaps other members of the new Board of Estimate will meet this afternoon at No. 50 East 42d Street to agree upon recommendations for reducing the budget for next year. These recommendations will be submitted to the present Tammany Board of Aldermen and if acted upon favorably by that body will force the Mayor to veto them or admit that they are well founded.

One of the budget appropriations that is to receive attention is that for the Bureau of Personal Service in the Board of Estimate schedule. The total allowance for this bureau in the tentative budget was \$97,840. It is reported that the intention is to cut out all or nearly all this appropriation on the theory that the new Administration when it takes office will abolish the bureau anyway.

This is the old Bureau of Standardization which got itself into high disfavor a couple of years ago when the salaries of city employees were

standardized. The Director is George Tirrell, whose salary is \$7,500. It has a main division and a pension division. There is an Assistant Director and an Examiner who receive \$4,140 a year each, and any number of examiners, clerks, stenographers and other employees who receive salaries ranging from \$350 a year up.

Another cut is contemplated in the Board of Estimate's Committee on Education. William Wirt, who receives \$10,000 a year, is at the head of this committee. Mr. Wirt has had charge of the introduction into the school system of the so-called Gary plan. He has been mentioned by Mr. Hylan as one of the "experts from out of town" that the City Administration should get rid of. The committee is allowed \$32,000 in the budget. It has been assumed since the first attacks were made on the Gary system that Mr. Wirt's services would no longer be required if Mr. Hylan were elected.

There are several other bureaus in the Board of Estimate organization to which Messrs. Hylan, Smith and Craig are expected to pay attention in arranging for budget cuts. There is a Bureau of Records and Minutes, with a schedule total in the budget of approximately \$53,000; a Bureau of Public Improvements with a schedule total of \$47,000; a Bureau of Franchises, with a schedule total of \$39,000, and a Bureau of Contract Supervision, of which Tilden Adamson is head, which has a budget schedule total of \$158,000, and a Committee on City Plan with an allowance of \$21,000. How far the new officials may go in arranging for cuts in these budget allowances remains to be seen.

If the Board of Aldermen, which Tammany controls, makes the cuts which are to be arranged for this afternoon, it will be for the Mayor either to approve or disapprove the action of the board in each case. It may be stated that the Mayor will be inclined to veto all such cuts and leave the responsibility for the destruction of any part of the existing organization to the incoming Administration. If he vetoes all cuts it may be possible for the present Board of Aldermen, if it wants to take the responsibility, to pass the cuts over the Mayor's veto. Tammany has sufficient votes to do this.

## LEGAL ADVISORY BOARD TO AID IN DRAFT WORK

Organization Under New Plan for Exemption Hearings Now Proceeding in Each County.

ALBANY, N. Y., Nov. 22.—In response to telegrams from Gov. Whitman to each County Judge in New York State, organization of Legal Advisory Boards to aid the Federal Draft is now under way in every County. This step is being taken at the urgent request of Provost Marshal General Crowder.

The Boards whose members are now being designated will co-operate with Local Exemption Boards in their respective Counties in aiding registrants under the Selective Conscription Act to fill in the sixteen-page questionnaire to be sent out by the Adjutant General before Dec. 15. The County Judge is named Chairman of the Board, and will designate two members. The representative of the County Bar for appointment by the President upon the nomination of the Governor.

Other attorneys and laymen will be named as associate members as may be necessary to fit local conditions.

## HERMAN SIELCKEN DEAD CENSORED LETTER SAYS

Broker Who Organized Coffee Corner Here in 1907 Expires in Germany.

Herman Sielcken, seventy-seven years old, and for years a member of the coffee brokerage firm of Crossman & Sielcken, No. 90 Wall Street, died recently in Baden-Baden, Germany, according to word just received here.

A censored letter from the wife of a man in the coffee trade, who had read of the death in a Zurich newspaper, contained the announcement. The name had been blotted out, but uncensored passages made it clear that the man was Mr. Sielcken, who once cornered the coffee market here. The State Department has been asked for a confirmation of the report.

On Sept. 22 last the Government ordered that he be dropped from the Wall Street firm as he was living in Germany, and his business would violate the Trading With the Enemy Act. John S. Sorenson and Thorstein Nielson, resident partners, reorganized the firm as Sorenson & Nielson.

In 1907 Sielcken raised \$10,000,000 in bonds to finance the German navy. He realized a huge sum. The action was followed by a prosecution for violation of the Sherman law. Mr. Sielcken was one of the spectacular figures in the Havemeyer-Arbuckle trade war.

Captain Accused of Burning His Ship.

HONOLULU, Nov. 22.—Captain Oranow of the schooner Churchill, is accused in affidavits filed here today by members of his crew with having deliberately destroyed the vessel by fire after it had grounded on French Frigate shoals on Oct. 25. The arrest of Capt. Oranow has been ordered by United States naval authorities.

## TRAIN YOUR HAIR AS AN ACTRESS DOES

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cleanser. The majority say that to have the best hair wash and scalp stimulator at a cost of about three cents, one need only get a package of cantrox from your drug-gist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. This makes enough shampoo liquid to apply it to all the hair instead of just the top of the head. After its use the hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are quickly dissolved and entirely disappear when you rinse the hair. After this your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will then be yours, while the stimulated scalp gains the health which insures hair growth.—Advt.

# 500 Critics have endorsed Music's Re-Creation

The critics of over 500 newspapers have called Music's Re-Creation "A New Art." They have heard Mr. Edison's Re-Creations in tests of actual comparison with the tones of the living artists. And they have publicly admitted that their ears were baffled. The words of these critics will help you judge. Read what they say of

## The NEW EDISON

No Needles to Change—Can Be Made to Play All Makes of Records

"The indisputable fact that the phonograph can perfectly reproduce artistic vocal and instrumental music was graphically demonstrated last Friday afternoon at Carnegie Hall. The immense auditorium of this Temple of Musical Art was crowded to its capacity by a representative Carnegie Hall audience—musically cultured and musically critical."

Madame Marie Rappold, of the Metropolitan Opera House, and Thomas A. Edison's new phonograph both sang. They sang a few measures in unison, then the singer ceased, but her beautiful voice continued to fill the Hall. Again she joined her voice with the phonographic Re-Creation and again grew silent.

"The ear could not tell when it was listening to the phonograph alone, and when to actual voice and reproduction together. Only the eye could discover the truth by noting when the singer's mouth was open or closed."

"As a concert of the highest musical quality it was most enjoyable. As a new experience it was intensely interesting, as a demonstration of unlimited artistic possibilities of the phonograph it was fascinating."

—New York Evening Mail.

Thomas A. Edison

"Singing with the Edison laboratory Re-Creation of her own voice, so exactly was it like Miss Miller's voice in tone quality and enunciation, that it was not possible to tell one from the other."—Detroit Free Press.

"The most wonderful recital the music-lovers of Milwaukee have ever heard. \*\*\* With this last discovery of Mr. Edison, the phonograph has undergone wonderful improvements, and never before has it been possible so perfectly to reproduce human voice. \*\*\* Mr. Edison's latest invention is a musical instrument, not a mechanical apparatus."—Germania Herald, Milwaukee.

—St. Louis Post Dispatch.

"Mademoiselle Ellen Verlet entertained last night at what was the most unusual concert of its kind ever given in Chicago. The program opened with Verdi's 'Caro Nome' and the Diamond Disc Re-Creation of her voice. The effect was marvelous."—Chicago American.

"So perfect was the reproduction that it was virtually impossible to distinguish between the real voice and the Re-Created voice of the singer. It was as if there were two Marie Rappold, one within the cabinet and the other without. The two voices were one. Edison had demonstrated that he has really Re-Created the human voice."—Philadelphia Evening Telegraph.

"So perfectly did the instrument blend with her voice that the audience could not distinguish, except by her lips, when Miss Case ceased singing. During rendition of the song of India, the house was darkened and until the lights were turned on, no one knew Miss Case had left the stage. Besides a rare musical treat, the test convinced many skeptics of the triumph of Mr. Edison's genius in re-creating the human voice in all its naturalness."—St. Louis Post Dispatch.
